Quality and sustainability are our top priorities

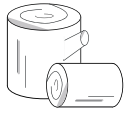
ISO 14001:2004
certificate

Cradle-to-Cradle
Silver certificate

KIWA Castor
Gaea certificate

This notebook was created with love for nature. The pages are made of tree free, water repellent and tear-resistant stone paper that can be written on over and over again. This way, we offer a planet-friendly alternative to notebooks made of regular pulp paper. Every single stone paper notebook makes a positive impact on our planet:

***Replaces** 15 pulp paper notebooks*



***Prevents** the production of 4.5 KG pulp paper*

***Restores** nature by planting 1 tree*
